Native speaker

Native speaker

Hi, I am a fourth year student at Umeå University studying interaction technology and design. I've spent this autumn at BCU in Birmingham, England.

When I am not in school I sing in a choir, spend time baking or cooking with friends. I find that the best way to clear my head is training or go for a run in the wood.

My friends would describe me as an active and social person who always has time for a chat and never says no to trying something new.
